TECHNICAL SERVICES

INTRODUCTION

GOGT Technical Services is a General Maintenance Service Provider with expertise in MEP Maintenance, based and operates in Dubai and other Emirates.

GOGT Technical Services is a team of experienced professional specialized in MEP Maintenance and undertakes Annual Maintenance Contract (AMC) of Residential, Commercial, Hotels and Villas communities and other Civil installation and repair work.

ABOUT US:

GOGT Technical Services formed in June 2021 by Mr. Imran Mehmodd & Mr. Khurram Aziz with a vision to provide Facilities Management and MEP Maintenance Services to the operational facilities within UAE

Our success is achieved by our extremely talented & experienced team through deep involvement in day-to-day technical maintenance activities and by “go and get it” approach.

We focus on proactive approach towards maintenance of MEP equipment and to minimize maintenance calls, attend and close such calls in minimum down town whenever they come.

Mr. Imran Mehmodd - Comes from HVAC Installation and Servicing background with over all 20 + years experience in UAE with numerous HVAC installation and maintenance at various projects and facilities within UAE.

Mr. Khuraam Aziz - Comes from Trading and Entrepreneurship background with over all 20 + years' experience trading.

MISSION

To lead in the niche market of Facilities Management and MEP Maintenance Services by providing excellent services and earning client's trust by consistently meeting their requirement through continuous growth driven by diligence, team work, improvement & trainings, products & process innovation.

VISION

Our vision is to be recognized as best MEP Maintenance & Facilities Management Company in UAE and we aspire to achieve this by continuously improving in quality, efficiency and providing end to solution to our esteemed clients.

OUR PEOPLE

We strongly believe in people and team work and dedicated attention to our client’s needs and provide them best service in minimum down time. For achieving this goal, we engage an experience team. We also aim to ensure our key people are well qualified and experienced and we provide them continuous training for improvement in our services.
